# PERMANENT TARIFF **BOARD ADVOCATED**

Ways and Means Committee Reports Bill Favorably.

WILL PASS HOUSE THIS WEEK

Senator Bailey Serves Notice He Will Not Permit Measure to Go Through Senate-House Democrats Bitter at Bla Attitude-President Taft In Anxious to Have Measure Pass.

President Taft won his first victory of the session over the Congress leaders yesterday when the House Committee on Ways and Means reported favorably the bill creating a permanent tariff board. All the Democrats, as well as the Repub-lican members, voted to report out this administration measure. The bill will doubtless be passed by the House this

It will then go to the Senate, where, ac-It will then go to the Senate, where, according to Senator Bailey, of Texas, it will be pigeon-holed by the Committee on Finance. Mr. Bailey hast night relterated his opposition to tariff board egistation, declaring that the bill as reported doesn't stand the ghost of a show of reaching the President for approval. Some fine work was done by adminis-

Some fine work was done by adminis-tration leaders to induce the Democratic members of the Committee on Ways and Means to give their approval to the tariff board bill. The Democrats had announced that they would opyose the mesure in committee and on the floor of the House.

### Underwood Is Opposed.

Representative Oscar W. Underwood, of Alabama, who will be chairman of the committee in the next House, laid down the principle that as the House, under the Constitution, originates revenue legislation, it would be inconsistent for any Democrat to place himself in the position of assenting t any proposal that even remotely suggested the transfer of such authority to an administrative body. This was the situation that confronted the Republican members when the com-mittee was called to order by Chairman

The Republicans went to the meeting determined to report some form of a bill. They had been told by the President that it was important for the House to act, whatever the fate of the legislation in the Senale. When the suggestion was made, as a sop to the Democrate, that a provision should be inserted in the bill directing the board to make investigations into related subjects whenever directed so to do by either house of Congress, every member present voted to report the bill. The support of the Democratic committeemen insures the passage of the measure in the House. It will be brought in under a rule some day this week and passed without delay.

### Will Start Fillibuster.

Failey's antagonism to the measure, when contrasted with the action of the Democratic members of the Committee on Ways and Means in voting to report the bill, serves to emphasize the differences between the Texan and his puris brethren in the House. Some of the House Democrats are bitter in their criticisms of Mr. Bailey. They assert that responsibility for his action should not attach to the party, declaring that the objections to the legislation beretofore urged by them were removed when the tariff beard, as provided in the bill.

Minneapolis, Jan. 21.—The so-called mystery concerning the death from alleged strangulation on a Minneapolis St. l'aul and Sault Ste. Marie Railway sleeper of Theodore Hemingstraus, of Utica, N. Y., at Thief River Falls, Minn., was cleared up to-day by the statement of C. C. Reynolds, cashier of the Housekeeper Publishing Company, of this city.

The railroad ticket found among Hem-ingstraus' effects was made out in the name of L. R. Lowes. Lowes' relative failed to identify the dead man. Mr Reynolds said to-day that L. R. MR. WILLARD EVERETT.

Mr. Everett was in my office the other day, and in talking about the general UPWARD TREND OF ADVERTISING, recited an incident that showed that the germ spreading broadcast to-day was at work in the Boston Herald office as far back as thirty years ago.

"In those days newspapers regarded themselves as common carriers, just as many of them do to-

looking at it from the standpoint of the cash till only. "Col. Pulsifer, however, concluded that such business should not be printed in the Herald, so he notified the Advertising De-

not know that so much money

was involved, but that did not

make any difference-it was all

the more reason why the business

the figures, showing that this ad-

SHOULD NOT BE PRINTED. He remained firm, and the business disappeared from the paper." Mr. Everett went on to say that within a few months after the clairvoyant advertising had been taken out of the paper the Herald began to jump in revenue by leaps and bounds, and continued to be a prosperous and

respected newspaper ever after-The present Boston Herald is working on plans to-day that mean for it, ultimately, great ADVERTISING APPRECIA-TION on the part of business men who want to see their announcements printed in newspa-
